EDUCATION

University of Michigan — Ann Arbor, MI
Bachelor of Science in Mechanical Engineering, International Minor for Engineers — *Aug. 2025 – May 2029*

- Cumulative GPA: 4.00/4.00
- University of Michigan Regents Merit Scholarship Recipient

Wylie E. Groves High School — Beverly Hills, MI
High School Diploma — *Aug. 2021 – May 2025*

- Cumulative GPA: 4.71/4.00
- National Honor Society, AP Scholar, DECA Chapter Co-President, Track and Field Team Captain

PROJECT EXPERIENCE

Electric Boat Outboard Motor Project | *UM Electric Boat Team* — August 2025 – Present

- Designed a 50 HP electric outboard motor for D-Stock competition as a part of the University of Michigan Electric Boat powertrain sub-team
- Engineered a custom 1.43:1 reduction gearbox to reduce motor speed from 10,000 RPM to 7,000 RPM while increasing torque output
- Created detailed parametric CAD models and assemblies in Siemens NX, accounting for shaft alignment and manufacturability

Custom-Built 3D Printer Project | *Passion Project* — June 2023 – August 2024

- Designed and built a custom FDM 3D printer optimized for improved speed and dimensional accuracy compared to consumer-grade machines
- Developed parametric CAD assemblies in Fusion 360 and Onshape for the frame, motion system, and component mounting
- Selected and integrated electrical components, including a display, main-board, power supply, and external MOSFET
- Modified main-board firmware in VSCode to ensure compatibility with custom hardware and motion configuration
- Assembled, tested, and tuned the machine to achieve precise results

PROFESSIONAL EXPERIENCE

Bicycle Technician and Cashier — Berkley, MI
D&D Bicycles — *June 2023 – August 2025*

- Collaborated with team members to maintain a clean, organized, and safe working environment
- Serviced, maintained, and repaired bicycles with a focus on efficiency, quality, and safety
- Assembled new bicycles upon arrival at the shop, adhering to strict quality control guidelines from manufacturers
- Assisted customers in their shopping experience, managed the register, and maintained the showroom

SKILLS

Software: MATLAB, C++, VSCode, Fusion 360, Siemens NX, Onshape, Microsoft Office Suite

Languages: French (spoken and written proficiency)

Relevant Coursework: Multivariable Calculus, Differential Equations, AP Physics Mechanics, AP Physics Electricity and Magnetism
